ANALYSIS OF PROPOSED REVISION TO SENATOR ERVIN'S
ROUGH DRAFT PROPOSED AMENDMENTS TO S. 782*

Proposed Amendment by Senator Ervin	REVISION	EXPLANATION
Sec. 1(k), p. 8, line 5, after the word "requests," strike period and insert following: ": Provided, however, That a civilian employee of the United States serving in the CIA, the NSA, or the FBI may be accompanied by counsel, or by a person of his choice who serves in the agency in which the employee serves, who has been cleared as a good security risk by that agency for the purpose of the case."	Sec. 1(k), p. 8, line 5, after the word "requests," strike period and insert following: ": Provided, however, That a civilian employee of the United States serving in the CIA or the NSA may be accompanied only by a person of his choice who serves in the agency in which the employee serves or by <u>counsel who</u> has been approved by the agency for access to the information involved."	The revision was made for purposes of clarification and does not change the intent of the original wording. That wording connotes a "security clearance," a technical term involving a formal process intended to control access to classified information at a number of different levels in an enduring work situation. The suggested revision represents the more temporary and less sweeping needs of the situation, while still fully serving the objectives of the original language.

*NOTE:

1. All references to the FBI have been deleted.
2. In addition to the proposed revisions of Senator Ervin's proposed amendments, a revision of section 1(a) of the bill has been proposed as follows:
On page 2, line 15, insert after the word "origin" the words "or citizenship" and after the word "employee" the words "or person, or of his forebears . . .".
This revision recognizes that where citizenship is not a statutory condition of employment, it, as well as national origin, can be an important consideration in determining suitability for a particular assignment for employees and applicants, as can the citizenship or national origin of their forebears.

Further review of the original language indicates that a grade or category of duties criterion would result in the establishment of arbitrary standards which are unworkable in practical application.</p>

REVISION

EXPLANATION

Central Intelligence Agency under 50 USC 403(c), the National Security Agency under 50 USC 833, and the Federal Bureau of Investigation under 28 USC 536 to terminate the employment of any employee;" ...

Provided further, however, That the above period of 120 days may be extended if deemed necessary on a personal finding by the director of the agency involved: Provided further, however, That nothing in this Act shall be construed to affect any existing authority of the Director of Central Intelligence under 50 USC 403(c) and the authorities available to the National Security Agency under 50 USC 833 to terminate the employment of any employee:"...

On p. 19, line 20, add a new Sec. 8:

"Sec. 8. Nothing in this Act shall be construed to affect in any way the authority of the directors of the CIA, the NSA, or the FBI to protect or withhold government information pursuant to statute or executive order. The personal certification by the director of the agency that disclosure of any information is inconsistent with the provision of any statute or executive order shall be conclusive and no such information shall be receivable in evidence in any interrogation under section 1, subsection (k), or in any civil action under section 4, or in any proceeding or civil action under section 5.

On p. 19, line 20, add a new Sec. 8:

"Sec. 8. Nothing in this Act shall be construed to affect in any way the authority of the directors of the CIA or the NSA to protect or withhold information pursuant to statute or executive order. The personal certification by the director of the agency that disclosure of any information is inconsistent with the provision of any statute or executive order shall be conclusive and no such information shall be admissible in evidence in any civil action under section 4, or in any proceeding or civil action under section 5.

The revision deletes the word "government" in the phrase "government information" to eliminate any possible conflict over the various language, e.g., official information, military information, classified defense information, intelligence sources and methods, used in statute or executive order to describe the information to be protected; and removes, as unnecessary, the restraints on outside counsel receiving classified information during an interrogation under section 1(k).
